

Let's be innovative and sustainable.

Let's be innovative and sustainable.

15.12.2020

During this project, students from four technical schools in France, in Germany, Croatia and Turkey will study the pillars of sustainability, the various green laws and agreements in their countries, but also in Europe. Then, they will examine some eco-friendly devices. Eventually, they will imagine devices or objects . These...

Coding Digital Educational Games V.3

Coding Digital Educational Games V.3

14.12.2020

The game is way for a child to learn through their own experince about the subjects that no one will teach them. With the rapid advancement of technology and the changing habits of children to play and socialize, traditional games have been replaced by digital games played via computers and...
